STALLION SERVICE CONTRACT FOR FRESH SEMEN LF30DG
For orders call or text (916) 203-2247 or E-mail Edgar@Eurequine.com

Name_____ Street_____City_____

State_____Zip_____Phone#_____Email_____

enters into this agreement with Eurequine, LLC. also referred to as "Stallion Manager". Above named is referred to as "Mare Owner" in this agreement. "Mare Owner" is the owner or lessee of the mare to be bred, mare named below.

This service agreement is for _____ to breed the mare named_____
                                                         Stallion   (Registered Name - **Not** barn/show name)

Breeding fee Mare Owner agrees to pay for this 20__season stallion service is $_____

$_____ paid, Balance of $_____ due prior to shipping semen

A booking fee of $400 is included in the breeding fee above. I understand that my mare must be examined by a licensed veterinarian with an ultrasound machine at about 18 and about 50 days after the last breeding day. Stallion Manager will need to be notified of her pregnancy status at that time by email or text so a breeding certificate can be issued after the breeding season, before foaling.

The stallion manager assumes responsibility to have available for pick-up or deliver live semen in viable condition at the time of delivery to the approved shipping address. This semen must be administered by a licensed veterinarian or by a breeding technician approved by Stallion Manager only to the mare named in this agreement. This agreement is to produce one (1) foal from the above-mentioned mare regardless of the breeding methods used. ET and ICSI permitted. If semen shipments are used for a mare other than named in this agreement or multiple embryos are produced the standard posted breeding fee and completed contract shall be due and submitted to Eurequine, LLC. immediately.

In the event of stallion's death or the inability to produce and ship viable semen from the stallion contracted for this service, Stallion Manager shall substitute this fresh semen agreement for either frozen semen from the same stallion, if available, or the mare owner may choose fresh semen from another Stallion owned by the Stallion Manager.

In case the mare does not conceive, Stallion Manager guarantees return privileges for the contracted mare during the breeding season and guarantees return breeding privileges for two seasons following the initial breeding season (for a total of three years). To book the above mare for the third year a $400 booking fee will be due. A mare may be substituted with permission of the Stallion Manager and a statement from a licensed veterinarian confirming the original mare on contract is barren. A transfer fee is due to substitute a mare. This contract may not be sold and is only transferable upon approval with written permission of Stallion Manager.

LF30DG - Should the mare not produce a live foal that stands, sucks and survives the first 30 days after birth, mare owner shall be entitled to above-mentioned return privileges. This guarantee shall only apply if the stallion manager is notified within one week of the foal's death. A statement of details by a licensed veterinarian must follow within 10 days or the guarantee becomes null and void. This clause is also binding in case of abortion. If the mare lost her pregnancy, Stallion Manager needs written verification of this fact, mailed, or emailed from the attending veterinarian.

The Mare Owner shall assume all responsibility for the condition of the mare and shall bear all risk of loss or damage to the mare whether by death, disease, injury, infection or otherwise, and by any cause whatsoever, and therefore agrees to hold the stallion manager, owner, keeper or agent harmless for any and all damages associated therewith.

Fill out completely <u>or</u> return with a copy of mare's papers so we can complete your breeding certificate. Breeding reports are sent to the major registries. Stallion certificates of service are sent to you and the AHS, after receiving pregnancy confirmation. The AHS retains a copy so you will not need to submit it when registering Hanoverian or Rhineland foals.

Mare:_____Reg.#:_____Year born_____ Breed:____

Markings_____Color_____

Mares Sire: _____ Dam:_____ Dam's Sire_____

A uterine culture is recommended for an older mare that was bred before, a mare that had a difficult birth/retained placenta, aborted last pregnancy or if you have any other reasons to be suspicious of her uterine health. We **do not** require proof of a clean culture. We do expect you to follow your veterinarian's recommendation for best results.

<u>Fees, collection and shipping requirements:</u>
A credit card to pay for shipping container, collection and shipping is required to order semen. Each collection is $195. Shipments outside of the regular season, approximately March15th - September 1st and orders placed after 9 am on the same day of shipment are subject to a $50 charge. Approximate transportation costs are: Federal Express: $130.00; Air Lines Counter to Counter: $105.00; Courier Service to Airport: $130.00. High quality disposable containers: $35, do not need to be returned. Equitainers are available upon request. This breeding contract is non-refundable. Fees are subject to change.
