enters into this agreement with Eurequine, LLC., also referred to as "Stallion Manager". Above named is referred to as "Mare Owner" in this agreement. "Mare Owner" is the owner or lessee of the mare to be bred, named below.

This service agreement is for the stallion \_\_\_\_\_ to breed to the mare named \_\_\_\_\_  
(Registered Name - Not barn/show name)

Breeding fee Mare Owner agrees to pay for this 202\_\_ season stallion service is \$ \_\_\_\_\_ (includes \$400 booking fee)

\$ \_\_\_\_\_ paid, Balance of \$ \_\_\_\_\_ due prior to shipping semen.

### **This breeding agreement allows the Mare Owner to produce one (1) foal.**

I understand that my mare must be examined by a licensed veterinarian with an ultrasound machine at about 18 and 50 days after the last breeding day. Stallion Manager will need to be notified of her pregnancy status.

This contract includes three doses of frozen semen unless otherwise indicated in writing. The Stallion Manager assumes responsibility to have available for pick-up or delivery three doses in viable condition at the time of shipping to the below shipping address. This semen must be administered by a licensed veterinarian or by a breeding technician approved by Stallion Manager only to the mare named in this agreement. If semen shipments are used for a mare other than named in this agreement without approval from the Stallion Manager the standard posted breeding fee and a completed contract shall be due and submitted to Eurequine, LLC. immediately. In the case of Embryo transfer, when more than one embryo is recovered Mare Owner must notify Eurequine LLC no later than 18 days post implantation. A Breeding Fee for each additional embryo is due after a heartbeat check, no later than 30 days post insemination. Freezing of embryos is not permitted under this agreement.

In case the mare does not conceive on the first shipment of three doses, Stallion Manager guarantees return privileges for the contracted mare and a second shipment of three doses of frozen semen can be ordered at \$150 plus shipping expenses. Stallion Manager guarantees return breeding privileges for two seasons following the initial breeding season (total of three years) to ensure Mare Owner that a foal is produced as a result. If contracted mare does not conceive after breeding with 6 doses of frozen semen, mare owner has the option to convert this contract into a fresh semen contract with one of the Eurequine LLC owned stallions for the remainder of this agreement. A mare may be substituted with permission of the Stallion Manager and a statement from a licensed veterinarian confirming the original mare on contract is barren. A transfer fee of \$40 will be charged to substitute a mare. This contract is only transferable upon approval with written permission of Stallion Manager.

LF30DG - Should the mare not produce a live foal that stands, sucks, and survives the first 30 days after birth, mare owner shall be entitled to above-mentioned return privileges. This guarantee shall only apply if the stallion manager is notified within one week of the foal's death. A statement of details by a licensed veterinarian must follow within 10 days or the guarantee becomes null and void. This clause is also binding in case of abortion. If the mare lost her pregnancy, Stallion Manager needs written verification of this fact, mailed, or emailed from the attending veterinarian. A completed Mare Breeding Report must be received by Eurequine by October 1<sup>st</sup> the year of breeding, Mare Breeding Reports are available at [www.Eurequine.com](http://www.Eurequine.com). If unused doses remain after the foal lives 30 days post birth, you must contact Eurequine LLC to return doses or purchase an additional breeding contract.

The Mare Owner shall assume all responsibility for the condition of the mare and shall bear all risk of loss or damage to the mare whether by death, disease, injury, infection or otherwise, and by any cause whatsoever, and therefore agrees to hold the stallion manager, owner, keeper, or agent harmless for any and all damages associated therewith.

**Fill out completely or return with a copy of mare's papers** so we can complete your breeding certificate.

Breeding reports are sent to the major warmblood registries. Stallion Certificates of Service are sent to you, after receiving breeding dates and pregnancy confirmation. We cannot issue certificates without this information. Breeding certificates are mailed in the foaling year.

A uterine culture is recommended for an older mare that was bred before, a mare that had a difficult birth/retained placenta, aborted last pregnancy or if you have any other reasons to be suspicious of her uterine health. We **do not** require proof of a clean culture. We do expect you to follow your veterinarian's recommendation for best results.

Fees and shipping requirements:

No handling or container rental fees are charged if shipping container is received back to Eurequine within 7 days after arrival at recipient's address. A credit card to pay for the container's nitrogen charge \$50 and the shipping billed at cost, is required to order semen. Recipients' storage container needs to be available and semen straws transferred to it immediately upon arrival. Stallion Manager offers to ship a return label with the shipping container for recipients use to facilitate expedient container return and avoid extra charges to Mare Owner. If container is not returned to and received by Eurequine LLC at below return address 7 days from initial semen shipment arrival, Mare owner will be liable and agrees to be charged \$10 dollars per day from the 8<sup>th</sup> day on until container is returned to Eurequine LLC. Eurequine LLC will insure the shipping container for damage or loss at \$1300, Mare owner agrees to insure the shipping container for \$1400 during return shipment. Ultimately the Mare Owner is responsible for the return of the container in good condition and in a timely manner or replacement cost, which is \$1400.
