

Mare Breeding Report - Frozen Semen

Breeding Year:	
Breeder Name:	
Stallions Name:	
Mares Name:	

I, the undersigned Veterinarian, or authorized Breeding Manager, certify the following:

- I artificially inseminated the mare named above to the stallion named above on the date/s listed below
- I personally verified the name of the stallion on the straws of frozen semen.
- No other mare than the one listed above was inseminated with the semen from named stallion

The remaining frozen semen doses are the property of Eurequine LLC as per the signed frozen breeding agreement. **The remaining frozen semen is not to be used on any other mare without express written permission from Eurequine LLC.** The remaining doses are available for the Breeder named above to use on the mare named above in the event that the mare does not deliver a foal that lives past 30 days of birth. This is to guarantee the breeder one foal as contracted in the breeding agreement. When breeder named above has a foal from the above mare and stallion the remaining straws are to be returned to Eurequine LLC. or may be purchased by completing a new breeding agreement. A breeding certificate will be issued with the provided information.
